There are two types of grammatical functions. Grammar functions are descriptions of the roles certain types of elements in a sentence play in conveying the meaning of the sentence. There are two basic grammatical functions: one type of function, or grammatical form, describes the sequence of elements in a sentence that convey meaning; the other type, or grammatical function, describes the roles played by those elements in the sentence. Grammatical function types are usually indicated in English by words such as 'subject', 'verb', 'adjective', etc. Functions of Grammar.
