This software is designed to enable you to install Windows 7 without having to go through the process of re-formatting, re-booting and re-installation of operating system, just by you downloading the. Unlike the original Windows Setup, this one will be able to recognize all your Windows 7 files and if a program becomes corrupted the repair file will point the software to just the relevant file, instead of copying over the entire OS. This software is what you need to do it yourself without having to pay \$100's to professional PC repair shops. As is the case with most Windows 7 Loader, the software will look for the Windows 7 folder to be created on the root of the first partition of your hard drive. This software will upgrade it to Windows 7 instead of installing it, making sure that you don't have to do the complicated procedure 55cdc1ed1c
