Aug 30, 2019 Patch 6.0.0 - All in one Complete package New MUT Spiking, Shooting, Long passing, Cut The ball, Attacking, 4-3-3 system, 3-4-3 system, 4-2-3-1 system and 5-3-2 system, Mirco control. The English Game just got an amazing update for the upcoming season. This update brings a lot of new features, gameplay changes, and improvements. It also fixes several bugs and balance issues which may be present. Changes in the Ultimate Team (Season 2019-2020) Gameplay Graphic and presentation Match engine Season engine In-game editor Updated features Gameplay The gameplay is the biggest change of the game. The pitch size has been reduced in length and width, so as to fit more people in stadiums. This leads to a change in the shape of the pitch, a narrower pitch, with a bigger distance between the two penalty areas. PES 2019 will feature a new offside system, which will be introduced in the second half of the season. The new ball technology has been improved in some aspects, such as improved ball flight and recovery, improved grip and a new DNA system for harder grip and feel, and there is a new DNA Control System as well. PES 2019 will also feature an improved free kick system, where players will be able to flick the ball from any angle, and there will be new counter-attacks as well. In 2019, more attacking players will be able to pass through the ball, in order to avoid the two-second rule. There will be a new female ball physics system in the game, that will let more players control the ball with both feet, and the ball will adapt better to the players. The new female ball physics will also feature a new reverse shot system, that will let players use both feet to attack and shoot from distance. A new challenge mode, titled "The World Cup" will be introduced in the 2019 Season
